

CS 4223-01 Project Checkpoint #4

Due October 17, 2019

Assignment

Write, test, and debug a *bison* parser for Slic, including the complete *data* section and an empty *algorithm* section. Report to the user whether parsing succeeded or failed. You will need to include a scanner written in *flex* and a main program written in C.

What to Turn In

Zip your source code files, including a *makefile* that builds the application, and turn them in via Canvas by class time on the due date.
